There's a New Kind of Computer Training

From a Company You'll Want to Work With

Virtual Instructor-Led Training

If you've taken a computer class in the past couple of years, you've probably heard of "Virtual Instructor-Led Training." That refers to live, instructor-led training that is delivered remotely over the internet.

Companies like New Horizons, Global Knowledge, and Learning Tree have their own brand of virtual training where you can take a class from your home or office.

In A Classroom

Like our competitors we offer live, interactive, instructor-led training over the internet. But with one big difference—we provide you with a physical classroom. Our classrooms have all of the technology you need for virtual training and, just as important, offer an interruption-free environment in which to learn. That's why we call our solution Remote Classroom Instruction, or RCI^{TM} .

From a Company You'll Want to Work With

Although we've been in the IT training business since 1983, we are probably unlike other training companies that you've worked with.

Growth from Referrals, Not High Pressure Sales Tactics. We were recognized as the fastest growing Microsoft training partner in 2009, 2010 and 2011 by Inc. Magazine. That growth was mostly from word-of-mouth referrals, and not high pressure sales tactics. Our non-commissioned customer service staff will never call to sell you into a class. We respect your time and assume you will contact us when you're ready for training.

"We believe the classroom is the centerpiece of an outstanding learning experience. That's why we've invested millions of dollars over the last 5 years opening locations coast to coast. Now 80% of the US population is less than a 45-minute drive from an ONLC site."

— Andy Williamson, CEO of ONLC Training Centers

a 45-minute drive from an ONLC site." — Andy Williamson, CEO pect

ming.

A Business-to-Business Training Company. Our primary clients are corporations or government agencies. Unlike other for-profit training companies, we do not take any government funds (grants or student loans) for individuals or career changers. Our students are almost exclusively IT and administrative staff members. We work closely with training coordinators to deliver company-wide training for new software deployments. We specialize in migration training for thousands of employees in multiple locations coast to coast.

Learn more about our corporate migration training at www.onlc.com/migrations

onlc

Over 250 Classroom Locations

We have over 250 staffed training facilities in downtown business districts and convenient suburban office parks. Most are in class-A buildings with office-sized "classrooms" that connect up to 4 students to an instructor in another facility. Over 80% of the US population is less than a 45-minute drive from an ONLC classroom.

Or you might prefer "destination training" where you can take advantage of the fact that we have facilities in popular cities such as San Francisco, Las Vegas, Denver, Chicago, Miami, New York City, and Boston. If you have a personal or business reason to travel, go ahead and do it. All of our classes are scheduled in all of our locations.

For more about our training sites see www.onlc.com/locations

With the Technology You Need and More

Our classrooms have everything you need to take a live, virtual class: computers with a fast internet connection, speaker phone and course manual. It is very important to have two computers per student. One is used for viewing the instructor's live presentation and demonstrations while the other computer is for performing your hands-on labs.

Along with the technology we provide something equally important, a quiet place where you can concentrate and learn without interruption. Even though our clients have the option of attending class from their home or office, over 85% choose to attend from one of our classroom sites.

Find out why at www.onlc.com/classrooms

Backed by Over 29 Years of Experience

A lot goes on behind the scenes to make our business model work smoothly. Every week hundreds of students attend classes from hundreds of different locations. Each person needs a book. Computers need to be provisioned. Connection information needs to be set for software labs, online meetings and telephone conference bridges. If you take a class at one of our locations, all of the computers will connect automatically. With help from our sophisticated internal systems and our experienced staff, you just need to show up the day of class. We'll take care of the details.

About Our Classes

Huge Selection, Fewest Cancellations. We offer more classes in more locations than any other training company in North America. We don't just schedule them, we run them! Because we combine registrations from all of our locations, there is over a 95% chance that a class will run on the original date and location you selected.

We Offer Every Class at Every Site.

All classes are scheduled for each of our 250+ locations on each class date.

100% Live Instruction. None of our classes are recorded. You'll interact with the instructor and fellow students regardless of your location.

Hands-on Learning. You'll do labs on the computer with your instructor monitoring your progress.

Small Class Size, Personal Attention. Enrollments are limited to 12 students, exceeding that number only on rare occasions. Our smaller class size allows for direct attention from the instructor.

No Headset. You won't be tethered to your chair with a headset. Our sites use speaker phones so you can interact unencumbered at all times.

It's All There. If you attend from our classrooms you don't need to provide any hardware or install any software. It's there waiting for you.

More @ ONLC.COM

More Class Titles

Check our web site for new releases plus the many additional titles and versions we just couldn't fit on this flyer.

More Dates & Class Status

View up-to-the-minute class dates plus which dates are Ready to Run (A), or nearing that status (A).

• Class Prices

Class prices are listed on the web site. Register early to avoid the premium price that's applied a week before due to the added costs we are charged for rush processing, shipping, etc.

Payment is due at registration; major credit cards and vouchers (Microsoft, Cisco, Citrix) accepted. See our web site for cancellation policy, free retake option, and more.

Vouchers Accepted

ONLC accepts training vouchers from Microsoft, Citrix and Cisco.

From Home or Office

Most students choose to attend class at an ONLC site, but that may not always be possible or preferred. You can attend these same classes from your home or office. To do so you will need:

- One, preferably two computers running Windows operating system
- hands-free phone
- high speed internet (DSL or faster)

Specify *HOME/OFFICE via RCI* as your class site when you register.

100% Guaranteed

Try our training risk free. Don't like a class? Let us know by lunch break of the first day and we'll refund your money. For details see www.onlc.com/guarantee.

The IT Training Company You'll Want to Work With...

ONLC is a leading business-to-business IT training company. A recent survey revealed that 95 of the top Fortune 100 use ONLC's training services. Companies large and small choose us for our quality instruction, money-back guarantee and great customer service. In addition, there are a few other things that really separate ONLC from other training providers:

The Most Locations.

We know the importance of the classroom in the learning process. That's why we've established over 250 physical training locations, making ONLC is the largest IT training company in North America. Over 80% of the population is within a 45-minute drive to one of our sites. Large organizations appreciate that their employees can get consistent training coast to coast—in a quiet, interruption-free classroom environment. That helps their employees focus and make the most of their training day.

Fewer Cancellations.

Cancelled classes can wreck havoc on business schedules. ONLC cancels less than 5% of our registrations because of low enrollments—that's one of the lowest cancellation rates in the industry. Our size makes that possible because we combine enrollments from all of our locations. When you register for a class with us, you'll have over 95% certainty that you will be able to take that class on the date and in the location that you selected.

No Unwanted Solicitations.

We understand how valuable your time is. As a result, we will never call you to try and talk you into another class. In fact, we believe that if you need more training, you'll contact us when ready. Simple idea, but not every training company subscribes to that philosophy.

Providing high-quality, reliable training service has made us the fastest-growing Microsoft authorized training company three years in a row. That fact that is even more remarkable considering that we have no outbound sales force. Our rapid growth is driven by positive word-of-mouth referrals. It is easy to see why organizations prefer working with ONLC for their IT training.
