Live, Virtual Computer Training

Held at over 300 ONLC Classroom Locations

Virtual Instructor-Led Training

If you've taken a computer class in the past couple of years, you've probably heard of "Virtual Instructor-Led Training." That refers to live, instructor-led training that is delivered remotely over the internet.

Companies like New Horizons, Global Knowledge, and Learning Tree have their own brand of virtual training where you can take a class from your home or office.

In A Classroom

Like our competitors we offer live, interactive, instructor-led training over the internet. But with one big difference—we provide you with a physical classroom. Our classrooms have all of the technology you need for virtual training and, just as important, offer an interruption-free environment in which to learn. That's why we call our solution Remote Classroom Instruction, or RCI^{TM} .

From a Company You'll Want to Work With

Although we've been in the IT training business since 1983, we are probably unlike other training companies that you've worked with.

Growth from Referrals, Not High Pressure Sales Tactics. We were recognized as the fastest growing Microsoft training partner for the past five year by Inc. Magazine. That growth was mostly from word-of-mouth referrals, and not high pressure sales tactics. Our non-commissioned customer service staff will never call to sell you into a class. We respect your time and assume you will contact us when you're ready for training.

A Business-to-Business Training Company. Our primary clients are corporations and government agencies. Unlike other for-profit training companies, we do not take any government funds (grants or student loans) for individuals or career changers. Our students are almost exclusively IT and administrative staff members. We work closely with training coordinators to deliver company-wide training for new software deployments. We specialize in migration training for thousands of employees in multiple locations coast to coast.

Learn more about our corporate migration training at www.onlc.com/migrations

"We believe the classroom is the centerpiece of an outstanding learning experience. That's why we've invested millions of dollars since 2005 opening locations coast to coast. Now 80% of the US population is less than a 45-minute drive from an ONLC site."

— Andy Williamson, CEO of ONLC Training Centers

Over 300 Classroom Locations

We have over 300 staffed training facilities in downtown business districts and convenient suburban office parks. Most are in class-A buildings with office-sized "classrooms" that connect up to 4 students to an instructor who is in another facility. Over 80% of the US population is less than a 45-minute drive from an ONLC classroom.

Or you might prefer "destination training" where you can take advantage of the fact that we have facilities in popular cities such as San Francisco, Las Vegas, Denver, Chicago, Miami, New York City, and Boston. If you have a personal or business reason to travel, go ahead and do it. All of our classes are scheduled in all of our locations.

For more about our training sites see www.onlc.com/locations

With the Technology You Need and More

Our classrooms have everything you need to take a live, virtual class: computers with a fast internet connection, speaker phone and course manual. It is very important to have two computers per student. One is used for viewing the instructor's live presentation and demonstrations while the other computer is for performing your hands-on labs.

Along with the technology we provide something equally important, a quiet place where you can concentrate and learn without interruption. Even though our clients have the option of attending class from their home or office, over 85% choose to attend from one of our classroom sites.

Learn more at www.onlc.com/classrooms

Backed by 30 Years of Experience

A lot goes on behind the scenes to make our business model work smoothly. Every week hundreds of students attend classes from hundreds of different locations. Each person needs a book. Computers need to be provisioned. Connection information needs to be set for software labs, online meetings and telephone conference bridges. If you take a class at one of our locations, all of the computers will connect automatically. With help from our sophisticated internal systems and our experienced staff, you just need to show up the day of class. We'll take care of the details.

Every Class Date Offered at Every ONLC Location!

04/15-18 05/13-16 07/08-11 09/23-26

About Our Classes

Every Class Offered at Every Site.

All classes dates are scheduled for each of our 300+ training locations.*

100% Live, Virtual Instruction. You'll interact with the instructor and fellow students regardless of location. We use speaker phones at our sites so you can interact unencumbered at all times.

Hands-on Training. You'll work on the computer while our instructor monitors your progress and provides assistance.

Small Class Size, Personal Attention. Enrollments are generally limited to a maximum of 12 students. Our smaller class size allows for direct attention from the instructor.

Huge Selection, Fewest Cancellations. We offer more classes in more locations than any other training company in North America. More than 97% of our classes run as originally scheduled!

Register Early. To get the date and location YOU prefer, register early. Classes fill early and quickly. We accept registrations via our web site 24/7.

It's All There. If you attend from our site you don't need to provide any hardware or install any software. It's all there waiting for you.

See www.ONLC.com

- More Class Titles Available Check our web site for new releases, plus other course titles and versions that we just can't fit on this flyer.
- **Get More Dates & Class Status** View the latest class dates plus see the dates that are Ready to Run (^), or nearing that status ($\stackrel{\triangleright}{\sim}$).
- Prices, Payment & Policies

Class prices are listed on our web site. Register early to avoid a higher class price effective a week beforehand due to increased fulfillment, administrative and technical costs.

Your payment information is due at registration; major credit cards and vendor vouchers are accepted for web registrations. For other payment methods, you must call to register.

Our cancel, reschedule, free retake, 100% guarantee and other policies are posted at ww.onlc.com/register.

Vouchers Accepted

ONLC accepts training vouchers from Cisco, Microsoft and Citrix.

Train at Home/Office

Students may choose to attend our classes from their home or office computer. To do so you will need:

- One, preferably two computers running Windows operating system
- hands-free phone
- high speed internet (DSL or faster)

You do not need the class software on your computer. Specify HOME/OFFICE via RCI as your site when registering.

Satisfaction Guarantee

You can try our training risk free. If you don't like it, tell us by lunch break of the first day and we'll refund your money. For details see www.onlc.com/guarantee.
