# Virtual Instructor-Led Training

# Held at over 300 ONLC Classroom Locations

#### **Virtual Instructor-Led Training** in a Classroom

Like many other training companies, we offer live, interactive, instructor-led training over the internet, but with one big difference—we provide a physical classroom. Our classrooms have all of the technology you need for virtual training and, just as important, offer an interruption-free environment so you're focused on learning. That's why we call our solution Remote Classroom Instruction, or RCI™.

#### **Award-Winning Training Provider**

Top IT Training Company. ONLC Training Centers was honored a second year in a row as one of the top IT training companies by Training Industry, Inc. Their list of the Top 20 Training Companies is a world-wide competition that recognizes leadership and innovation from companies that deliver IT training.

**Fastest Growing.** ONLC was also recognized by Inc. Magazine as the fastest growing Microsoft Authorized training company in 2013. Each year Inc. Magazine publishes a list of the fastest growing private companies in the US and this marks the sixth straight year that ONLC Training Centers was top in training revenue growth. This demonstrates the ongoing popularity and market acceptance of our Remote Classroom Instruction solution.

#### No Gimmicks—Just Classes that Run

**Running More Classes.** We run more classes, in more locations, than any other training provider in North America. Traditional training companies need a minimum enrollment in the city where the instructor is teaching for a class to run. ONLC combines enrollments from multiple sites for class, so we're able to run classes traditional training companies can't.

A Business-to-Business Training Provider. Our primary clients are corporations and government agencies. Unlike other for-

profit training companies, we do not take any government funds (grants or student loans) for individuals or career changers. That's why we don't lure buyers with gimmicks or kick-backs to the individual taking the class. Instead of buying gifts for individuals taking classes, we have invested in providing value with classes that run in fully equipped training facilities.

Growth from Referrals, Not High Pressure Sales Tactics. Our staff is not commissioned or incentive based. We're not going to call you to sell you on a class. Our rapid growth is mostly from word-of-mouth referrals, not high pressure sales tactics. We respect your time and assume you will contact us when you're ready for training.

"We believe the classroom is the centerpiece of an outstanding learning experience. That's why we've invested millions of dollars since 2005 opening locations coast to coast. Now 80% of the US population is less than a 45-minute drive from an ONLC site." — Andy Williamson, CEO of ONLC Training Centers

#### **Over 300 Classroom Locations**

We have over 300 staffed training facilities in downtown business districts and convenient suburban office parks. Most are in class-A buildings with office-sized "classrooms" that connect up to 4 students to an instructor who is in another facility. Over 80% of the US population is less than a 45-minute drive from an ONLC classroom.

Or you might prefer "destination training" where you can take advantage of the fact that we have facilities in popular cities such as San Francisco, Las Vegas, Denver, Chicago, Miami, New York City, and Boston. If you have a personal or business reason to travel, go ahead and do it. All of our classes are scheduled in all of our locations.

For more about our training sites see www.onlc.com/locations

#### With the Technology You Need and More

Our classrooms have everything you need to take a live, virtual class: computers with a fast internet connection, speaker phone and course manual. It is very important to have two computers per student. One is used for viewing the instructor's live presentation and demonstrations while the other computer is for performing your hands-on labs.

Along with the technology we provide something equally important, a quiet place where you can concentrate and learn without interruption. Even though our clients have the option of attending class from their home or office, over 85% choose to attend from one of our classroom sites.

Learn more at www.onlc.com/classrooms

#### Backed by Over 30 Years of Experience

A lot goes on behind the scenes to make our business model work smoothly. Every week hundreds of students attend classes from hundreds of different locations. Each person needs a book. Computers need to be provisioned. Connection information needs to be set for software labs, online meetings and telephone conference bridges. If you take a class at one of our locations, all of the computers will connect automatically. With help from our sophisticated internal systems and our experienced staff, you just need to show up the day of class. We'll take care of the details.

#### About Our Classes

#### **Every Class Offered at Every Site.**

All dates for all classes are scheduled for each of our 300+ training locations.

100% Live, Virtual Instruction. You'll interact with the instructor and fellow students regardless of location. We use speaker phones at our sites so you can interact unencumbered at all times.

Hands-on Training. You'll work on the computer while our instructor monitors your progress and provides assistance.

**Small Class Size, Personal Attention.** Enrollments are generally limited to a maximum of 12 students. Our smaller class size allows for direct attention from

the instructor. **Huge Selection, Fewest Cancellations.** We offer more classes in more locations than any other training company in

North America. More than 97% of our

classes run as originally scheduled!

**Register Early.** To get the date and location YOU prefer, register early. Classes fill early and quickly. We accept registrations via our web site 24/7.

It's All There. If you attend from our site you don't need to provide any hardware or install any software. It's all there waiting for you.

#### See www.ONLC.com

- More Class Titles Available Check our web site for new releases, plus other course titles and versions that we just can't fit on this flyer.
- Get More Dates & Class Status View the latest class dates plus see the dates that are Ready to Run (1848), or nearing that status ( ).
- Prices, Payment & Policies

Class prices are listed on our web site. Register early to avoid a higher class price effective a week beforehand due to increased fulfillment, administrative and technical costs.

Your payment information is due at registration; major credit cards and vendor vouchers are accepted for web registrations. For other payment methods, you must call to register.

Our cancel, reschedule, free retake, 100% guarantee and other policies are posted at ww.onlc.com/register.

 Vouchers Accepted ONLC accepts training

vouchers from Cisco, Microsoft and Citrix.

### Train at Home/Office

Students may choose to attend our classes from their home or office computer. To do so you will need:

- One, preferably two computers running Windows operating system
- hands-free phone
- high speed internet (DSL or faster)

You do not need the class software on your computer. Specify HOME/OFFICE via RCI as your site when registering.

# **Satisfaction Guarantee**

You can try our training risk free. If you don't like it, tell us by lunch break of the first day and we'll refund your money. For details see www.onlc.com/guarantee.
