Continuing Education (CE) Activities Chart

Information Technology (IT) is a rapidly changing industry. As an IT professional, you need to show and employers need to know that your skills are current with industry developments. CompTIA’s Continuing Education (CE) program was launched on January 1, 2011 as a way to help you do just that.

You have three options to renew your certification:

1. Complete continuing education (CE) activities and earn a sufficient number of Continuing Education Units (CEUs) (annual renewal fee required)
2. Earn a qualifying higher-level CompTIA certification (no annual renewal fee required)
3. Pass the most current version of the exam for your respective, existing certification (no annual fee required)

The following certifications (received on or after January 1, 2011) are valid for three years from the date of certification:

* No maintenance fee is required if renewing through earning a qualifying higher-level CompTIA CE certification prior to your current certification expiration date, excluding CompTIA Cloud+ and CompTIA Mobility+ as they do not fulfill the total CEU requirements.

PLEASE NOTE: If you hold multiple CompTIA certifications, you only need to fulfill the CE requirements (including number of CEUs and payments) for your highest level certification.
